AN APPEAL FROM YOUR FOREST FIRE WARDEN

In these days of constantly rising taxes and wages, any unnecessary expense is an added burden on everyone's pocketbook — yours and mine. Forest fires cost money and damage our valuable woodlands. Lightning sets some forest fires, but we have no control of lightning. Children cause many fires. Ninety-eight percent of our forest fires result from human carelessness — our carelessness. This, we — you — and I can do something about.

When we require you to obtain a permit for out-of-doors burning or forbid you to burn on days of high fire danger or set up regulations — hours, etc., governing the use of the town dump we are simply protecting yours and the town's interests.

The ever present threat of forest fires is the concern of all of us; the responsibility for preventing them is ours and the costs of extinguishing are ours. We can do something about this problem, by being aware of and alert to the danger and by cooperating with your warden.

Do the things that are required of you —

1. Follow the warden's directions.
2. Secure the required burning permit.
3. Keep your fires under control.
4. Completely extinguish your fires before leaving them.
5. See that your children are properly cautioned.

Everyone will benefit by it.

SUPERINTENDENT'S REPORT

In submitting my first report as your Superintendent of Schools, let me hasten to state that there is much that I do not know, some things I am in doubt about, but that I am sure that we have too many pupils in too little space! Large classes do not tend to permit the best learning situations even when pupils of similar abilities are together. To be sure, a successful teacher can "handle" large groups but the individual pupil will not get the attention to which we feel he is entitled. To aim for 20 - 25 pupils in the lower grades and 25 - 30 in the upper is highly desirable. Even with this aim we know that these numbers will be exceeded in practice. We now have 4 groups over 35.

There is, of course, no easy or inexpensive answer to this problem. Just to provide space and teachers in the years ahead will be a struggle for everyone, not the least of whom is the property owner. Even though within my era as a superintendent the State has come to the aid in building programs (30% of the yearly bond issue) and has a basic foundation aid program for the poorer districts (Candia's share 61-62, $33,467), these amounts are not enough to stabilize the tax bill, not to mention some tax relief. Yet Candia faces the immediate task of adding basic classrooms to its overcrowded plant. In the process of expansion some thought should be given to larger cafeteria accommodations. To see during a lunch period how the pupils are organized in detail should give you added confidence in your school and cafeteria staff.

Just having enough space and teachers is not enough to have a superior educational program. We, and I mean society as a whole, have need of adults who have had the benefit of instruction in art, as well as music, in some crafts, in physical education, and who have had the counsel of skilled guidance personnel from an early age. We are told that a 30 hour work week is possible. You and I as adults of

50 or over have seen the work week shrink from 54 to 40 hours, or, more to the point, have seen leisure hours increased by almost two of the present working days. We need an adult population with some training in good use of leisure time. Finally, we in Candia (and elsewhere) need a tax structure such that no pupil will be penalized excessively because of place of residence. In the meantime it is our job to get the best educational program possible for your children with the money you may give us! We promise to do our best but it may not be enough.

Respectfully submitted,

C. MAURICE GRAY
